- Sahjanand Engicon LLP (Formerly Known as Sahjanand Engicon) is one of the largest and most respected companies in India's private sector. With a strong, customer-focused approach and a continuous quest for world-class quality, Sahjanand Engicon has capabilities unmatched across Technology, Engineering, Construction, and Manufacturing, 02 and maintains leadership in all its major lines of business.
- Sahjanand Engicon LLP is incorporated in India with its Head Quarter in Ahmedabad - INDIA. Founded in 2016, Sahjanand Engicon has grown from a modest domestic engineering firm to a globally recognized name Engineering Service in the Provider market. Attracting talent from around the world, Samsung Engineering has broadened its business portfolio to a full range of engineering, procurement and Construction services Electrical, Engineering for and Automation Projects across India.
- In a small period of time, we have truly risen above and beyond. By executing projects of national significance, we have powerfully integrated ourselves into the Indian engineering sector. Every new endeavour of our company has the ultimate goal of enhancing the quality of life for people across the country and creating new opportunities without compromising on quality. The success of the Company's performance is based on an efficient organization and dynamic and entrepreneurial management implemented successive processes and strategic plans committed to client satisfaction as well as to maximizing profitability.

- We have been providing our clients with reliable solutions to their most complex construction challenges. Today, we are recognized as a leader in the industry for our strength in traditional construction methods and our creative, fresh approach to cutting-edge technologies and delivery systems.
- We support our clients from project inception to the commissioning of the fully operational facility and our network of local offices enables us to offer our clients the dual advantage of a strong local presence and broad geographic reach. We find solutions to the challenges of our time and create the infrastructure for modern societies. While we work for governments and commercial customers, our projects have helped grow local economies and improve the quality of life for communities and people around the world.
- Each project is managed by our team of highly experienced personnel, incorporating the services of various professionals in geographical surveying and other related fields with whom we have established an excellent working relationship. Our subcontractors have now worked with us for a good number of years and have proved their reliability and dedication to quality workmanship. Over the years, the company has grown from strength to strength, having completed many projects.

MISSION

- Our mission is To be recognized as a dependable partner by providing, high-quality services within the budgeted cost and having safety in hearts and minds whatever we do. We wish to deliver value to our shareholders and customers by providing a full range of engineering, procurement and Construction services for – Electrical, Engineering and Automation Projects across India. We are committed to environmental sustainability and exercise our social responsibility to contribute toward engineering services while adhering to the best industry standards. Our mission also includes the overall development of our employees and satisfactory benefits and returns for our shareholders and affiliates.

VISION

- To be a preferred EPC Company in the Region by providing the best engineering, procurement and construction solutions with the best safety and quality to our valuable customers for sustainable development with a can do attitude with execution excellence. We wish to be the leading engineering and construction company, renowned for our working methodologies, technological heritage, and human resource capabilities. Our vision also includes being an ideal EPC Company operating in multiple sectors in the engineering and construction industries by providing our clients with responsible value-engineered solutions to meet their needs for sustainable development. We shall end eavour to grow both organically and inorganically through strategic ties up and Joint Ventures.

-  **Ethics.**
We are uncompromising in our integrity, honesty, and fairness.
-  **Quality.**
We are passionate about excellence and doing our work right the first time. Our reputation depends on our delivered value in the eyes of every customer and community.
-  **Culture.**
We actively build a diverse, inclusive, and collaborative work environment where all views are welcomed, openness is encouraged, and teamwork and merit are cornerstones. We are proud of what we do and how we do it—and we enjoy doing it.
-  **Relationships.**
We build positive, long-term relationships with our customers, joint-venture partners, subcontractors, suppliers, and colleagues that are built on trust, respect, and collaboration.
-  **Innovation.**
We develop and apply world-class technology. We listen, learn, and seek out the best ideas. We attack complacency and continually improve.
-  **Sustainability.**
We improve the quality of life in communities where we work by respecting local cultures, engaging local people, and protecting the environment.

**Demonstrate Integrity.**

Exercise the highest level of professional and ethical behaviour.

**Are Respectful.**

Treat people with respect and dignity.

**Listen actively.**

Communicate in a timely and forthright manner. Never undermine colleagues.

**Collaborate.**

Ask for and welcome help; offer and give it freely. Mutually resolve ambiguity and conflict.

**Build Trust.**

Make commitments responsibly and always keep our word. Be candid while building shared understanding

**Deliver.**

Set high aspirations, plan responsibly, and honour all commitments.

**Learn It, Do It, Share It.**

Be curious. Seek, share, and build upon experiences and lessons learned.

**Innovation.**

We develop and apply world-class technology. We listen, learn, and seek out the best ideas. We attack complacency and continually improve.

**Live Our Culture.**

Embrace, embody, and actively contribute to our Vision, Values & Covenants. Nurture a proud legacy.
